

## RED CROSS TO MAKE APPEAL IN NOVEMBER

Must Have Funds to Carry on the Work in Eastern Europe.

WASHINGTON, May 19. — An appeal to the American people for funds to carry on the work of their American Red Cross will be made next November according to the following statement issued today by Dr. Livingston Farrand, chairman of the Central committee of the organization.

"Appalling conditions in the countries of Eastern Europe, imposing on the American Red Cross obligations additional to those assumed during the period of the world war, and the continuance of activities in connection with the already outlined domestic program of the Red Cross, make necessary an appeal to the people of America for further funds to carry on the work for the relief of humanity."

"It has been decided to make this appeal in the autumn, in a period of two weeks culminating on the eleventh of November, the anniversary of the signing of the armistice—a season when the American people may properly give manifestation, through contributions to their Red Cross, of their thankfulness for deliverance from added horrors of war which have fallen upon nations less fortunate."

"At present the American Red Cross is bringing to a close its activities in the countries of Western Europe, and with the withdrawal of American troops from the war zone its work for the army abroad will end automatically. Disease and suffering of the most heartrending character, however, are calling for relief in other fields. The new international organization of Red Cross societies is preparing to deal with relief and health problems throughout the world in future years, but there are immediate emergencies which require the aid of the agencies already established. Foremost among these agencies is the American Red Cross. At present emergencies are being met with all the resources available, but it is apparent that the imperative calls for assistance for the next year or more will make additional funds necessary."

"It is anticipated that the generous heart of the American people will respond to the appeal to the full extent of the needs that will present themselves."
